

# Let It Ride Progressive

## How to Play

- ★ Let It Ride is based on the 5-Card-Stud Poker game.
- ★ **Bets** - Each Player places three equal bets in each of the following betting circles- **1 2 \$**.
- ★ **Optional 3 Card Bonus Wager** - Players may make this optional wager based on their first three card hand.
- ★ **Progressive Payouts** - The optional \$1 progressive bet wins if you have Three-of-a-Kind or better. See payable for odds. The top award - 100% of the jackpot - pays when you have a Royal Flush and 10% of a Straight Flush. The top two hands trigger Envy Bonuses.

You win if any other player gets a Royal Flush or Straight Flush. (Player must have bet on progressive.) See payable for odds. You can win multiple envy bonuses in a round, but you cannot envy your own hand or the dealers.

- ★ **The Deal** - Each Player receives three cards and three cards are placed face down in front of the Dealer.

# How to Play Cont.

- ★ **The Play** - You are not playing against the Dealer or other Players. You are simply trying to get a good poker hand by using your three cards and the Dealer's two community cards (cards shared by all players).
- ★ After looking at their first three cards, The Players may ask for their first bet back or they may "Let It Ride."
- ★ The Dealer then discards the bottom card leaving the two community cards.
- ★ The Dealer turns up the top community card. The Player may then ask for the second bet back or they may "Let It Ride" by placing their cards under their final bet.
- ★ The Dealer then turns up the second card thus exposing both community cards. At this point, all winning hands are paid according to the payout schedule below.
